THE
AMERICAN
Military Pocket Atlas ;

BEING

An approved Collection of Correct MAPs,

BOTH GENERAL AND PARTICULAR,

OF

THE BRITISH COLONIES;

Especially those which now are, or probably may be

THE THEATRE OF WAR :

Taken principally from the actual Surveys and judicious Observations of Engineers DE BRAHM and ROMANS; COOK, JACKSON, and COLLET; Maj. HOLLAND, and other Officers,

EMPLOYED IN

HIS MAJESTY'S FLEETS AND ARMIES.

(No. 53) Fleet-street.

T O

Gov. P O W N A L L,

MEMBER OF PARLIAMENT, F.R.S.
AND F.A.S. &c.

S I R,

AS we undertook this Work for the use of the Military Gentlemen at your recommendation, we cannot but hope that the avowed patronage, of a person so well informed in Geography, and having such a particular knowledge of the country of North America, may recommend it to the public ; we therefore presumed to dedicate it to You. To You we owe our just acknowledgments for having enabled us to rectify former mistakes, to offer details hitherto unknown, and to collect a very great variety of interesting objects, within a moderate compass. Notwithstanding our utmost assiduity and attention to compleat your idea ; we have still reason

to wish this work could have been rendered more worthy of your patronage and acceptance, and that it might shew in a manner adequate to our wishes, the respect and gratitude with which we have the honour to be,

S I R,

YOUR MOST HUMBLE

AND DEVOTED SERVANTS.

SURVEYS and Topographical Charts being fit only for a Library, such Maps as an Officer may take with him into the Field have been much wanted. The following Collection forms A PORTABLE ATLAS of NORTH AMERICA, calculated in its Bulk and Price to suit the Pockets of Officers of all Ranks.

It consists of a GENERAL MAP of that Part of the Globe, called NORTH AMERICA, and of a Second GENERAL MAP OF THOSE ISLANDS, Shores, Gulfs, and Bays, which form what is commonly called the WEST INDIES; these we consider as Introductory, and as giving a General Idea, and we trust a just one. The next three Maps, which divide the Continent of *North America* into the *Northern*, *Middle*, and *Southern*, *British Colonies* form the Body of this Work.——The First is copied from the Maps and Surveys which have been published under the Protection of the ADMIRALTY and BOARD OF TRADE. The Maritime Parts of *Canada*, *Nova Scotia*, and *New England*, have been adjusted by Major HOLLAND from his astronomic Observations, and the interior Parts have been carefully corrected from Governor POWNALL's late Map.——The Second, being the Provinces of *New York*, *New Jersey*, *Pensylvania*, and *Maryland*, have been collated with, and corrected by Governor POWNALL's late Map; and as nothing has yet been found, or can be more exact than Messrs. FRY and JEFFERSON's Survey of VIRGINIA, in those Parts this Map is copied from that, with the Addition of Governor POWNALL's late Improvements.——The Third Map

Map of the *Southern Colonies* is projected in the greatest Part from Actual Surveys, in others from Journals, as laid down by Persons perfectly knowing in the Topography of the respective Countries, by Messrs. COLLET, DUNBIBEN, COOK, DE BRAHM, and others. The Coasts of *East and West Florida*, and the *Gulf of Florida*, are adjusted by the very curious Nautical Surveys of Engineer ROMANS. This Map will be found to have a very particular Degree of Geographical and Topographical Merit——As the Lakes *Champlain* and *George* form the Main Pass between the Maritime Colonies and *Canada* we have added, as an Appendix to this Collection, a particular Map of these Parts done from Actual Survey.
